

INTRODUCING

DIVVY's Queuing + Contact Tracing Platform

The DIVVY Queuing + Contact Tracing Platform enables any venue that derives income from visitation by the public to communicate to its customers:

Peak periods

The quietest and busiest times to visit the venue

Peak days

The quietest and busiest days to visit the venue

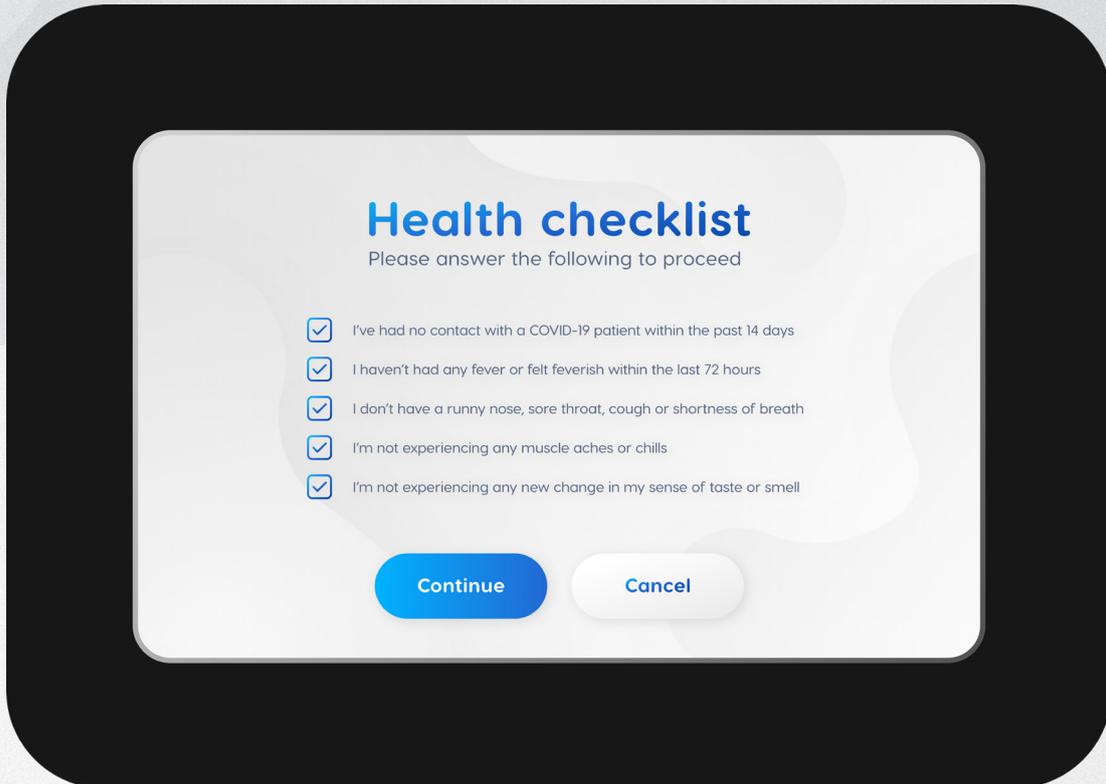

Wait times

How many minutes wait to enter the venue

Control the time, duration and amount of customers who access areas within your venue. Help your customers by making access to your venue safe, contactless and traceable.

Health Attestation Technology

**Do you require your customers to complete a health
attestation questionnaire every time they enter your venue?**

We can provide you with the technology to assist your customers
in completing this in a quick and easy process.

Visitor information

Capture visitor information and
the details of their visit

Contact tracing

Trace interactions across
employees and visitors

COVID Safe

Bring staff and customers back
to business with confidence
